The horrible side effects of “FDA Approved” prescription drugs.

There are many prescription drugs on the market to treat conditions like skin cancer, eczema, and Psoriasis. Our government claims that the FDA is in place to ensure the safety of Americans.....Why are they allowed to put drugs on the market that cause horrible side effects like the ones listed below?

Skin Cancer Drugs

Efudex (generic name fluorouracil)

Side effects include: Ventricular Septal Birth Defects, Leukocytosis, Bullous Pemphigoid, Ichthyosis, Scaling, Suppuration, Swelling, and Telangiectasia (Just to name a few)

Aldara (imiquimod) cream

Side effects include: Viral dizziness, Urinary tract infection, Rigors, Erythema, Edema, and Erosion (Again, there are many more, this is just to name a few.)

Psoriasis Drugs

Stelara

Side effects include: Serious allergic reactions (Anaphylaxis), Reversible Posterior Leukoencephalopathy Syndrome (a neurological disorder), Upper Respiratory Tract Infections, Headache, Fatigue and many more.

Eczema Drugs

Desowen (Generic Desonide)

Side effects include: Severe Allergic Reactions, Difficulty breathing, Excessive hair growth, inflammation around the mouth, hives and many others.

Dermatreat is safe and effective

Dermatreat is a safe and effective alternative to the many dangerous drugs on the market today. Dermatreat is safe, all natural, and fast-acting, with no known side effects or adverse reactions.

The High Cost of Healing *with the FDA Approved Drugs*

As you can see, the side effects of many prescription medications make them not worth taking. But what are the financial costs to be healed?

The cost of the medication. (Note: *All medications were priced at CVS pharmacy on 1/15/2011. Prices may vary with pharmacy chosen, insurance coverage, and prescribed dosage. Prices are given for comparison only and subject to change at any time.)

- Aldara- 30 day supply \$412.00
- Efudex- 40 grams \$405.00
- Stelara – 1 vial- \$5,800
- Desowen- 1 tube - \$308.99

Dermatologist Visits and Surgeries

We asked a Dermatreat user that had experienced prior surgeries to remove skin cancers about her experience. She paid **over \$20,000.00** to surgically treat **One Skin Cancer!** Dermatologist visits can cost hundreds, even thousands of dollars, depending upon the number of visits required and the severity of the skin problem.

The Low Cost of Dermatreat

- Dermatreat works faster than the alternatives (usually 1 to 2 weeks for skin cancers and as soon as 2 days for Psoriasis or Eczema with immediate itch relief. Acne is usually cleared within 2 weeks). Don't pay for painful ongoing treatments that can last several months for a less effective result!
- One package of Dermatreat contains enough product to treat about 2-3 skin cancers.
- Dermatreat retails for just \$49.95.
- Dermatreat has a money back guarantee (*Some exclusions apply. See your Dermatreat retailer for details.)
- Dermatreat is available without a prescription

* Dermatreat has not been evaluated by the FDA and is not intended to treat, cure, diagnose or prevent disease. We recommend that you remain under a doctors care while using Dermatreat.
