The Market For Dermatreat

- Skin Cancer is the **most common form** of Cancer.
- More than **two million people** are diagnosed with skin cancer in the US each year.
- **7.5 Million** Americans and **125 Million** people worldwide have Psoriasis.
- According to a study published by the American contact dermatitis society, it is estimated that **31.6 million people** have eczema and another **17.8 million** people have atopic dermatitis in the US.

The “FDA Approved” Drugs have horrible side effects.

It is a fact that the “FDA approved” drugs on the market to treat these conditions have horrible side effects. This is just a partial list of the side effects taken directly from their prescriber information sheets.

Skin Cancer Drugs

Efudex (generic name fluorouracil)

Side effects include: Ventricular Septal Birth Defects, Leukocytosis, Bullous Pemphigoid, Ichthyosis, Scaling, Suppuration, Swelling, and Telangiectasia (Just to name a few)

Aldara (imiquimod) cream

Side effects include: Viral dizziness, Urinary tract infection, Rigors, Erythema, Edema, and Erosion (Again, there are many more, this is just to name a few.)

Psoriasis Drugs

Stelara

Side effects include: Serious allergic reactions (Anaphylaxis), Reversible Posterior Leukoencephalopathy Syndrome (a neurological disorder), Upper Respiratory Tract Infections, Headache, Fatigue and many more.

Eczema Drugs

Desowen (Generic Desonide)

Side effects include: Severe Allergic Reactions, Difficulty breathing, Excessive hair growth, inflammation around the mouth, hives and many others.

Dermatreat is safe and effective

Dermatreat is a safe and effective alternative to the many dangerous drugs on the market today. Dermatreat is safe, all natural, and fast-acting, with no known side effects or adverse reactions.

Your customers are paying enormous costs for the “FDA approved” medications they may currently take

The human costs are very high in terms of side effects, but what are the financial cost (s) of these medications.

(Note: *All medications were priced at CVS pharmacy on 1/15/2011. Prices may vary with pharmacy chosen, insurance coverage, and prescribed dosage. Prices are given for comparison only and subject to change at any time.)

- Aldara- 30 day supply \$412.00
- Efudex- 40 grams \$405.00

- Stelara – 1 vial- \$5,800
- Desowen- 1 tube - \$308.99

Dermatologist Visits and Surgeries

We asked a Dermatreat user that had experienced prior surgeries to remove skin cancers about her experience. She paid **over \$20,000.00** to surgically treat **One Skin Cancer!** Dermatologist visits can cost hundreds, even thousands of dollars, depending upon the number of visits required and the severity of the skin problem.

The Low Cost of Dermatreat

- Dermatreat works faster than the alternatives. (usually 1 to 2 weeks for skin cancers and as soon as 2 days for Psoriasis or Eczema with immediate itch relief. Acne is usually cleared within 2 weeks.) Your customers do not have to pay for painful ongoing treatments that can last several months for a less effective result.
- One package of Dermatreat contains enough product to treat about 2-3 skin cancers.
- Dermatreat retails for just \$49.95. Wholesale price is \$24.95.
- Dermatreat has a money back guarantee. (For skin cancer only at this time. Guarantee may be offered on other conditions at a later time. Additional feedback is needed on other conditions.)
- Dermatreat is available without a prescription. Dermatreat has not been evaluated by the FDA and is not intended to treat, cure, diagnose or prevent disease. We recommend that you remain under a doctors care while using Dermatreat.
